SUMMARY

Full-stack software engineering student building web and mobile software with React, Next.js, TypeScript, Python, and Rust. Application Developer Intern at R. R. Donnelley translating legacy COBOL into Python. Founder startup experience for a workforce-management SaaS platform. Starting a master's in Computer Science at Utah State University in Spring 2027.

EDUCATION

Utah State University, Logan, Utah ***Starting Jan 2027***

Masters of Science in Computer Science

Utah State University, Logan, Utah *Cum Laude* ***Dec 2026***

Bachelor of Science in Computer Science

- Honors Program
- HackUSU 2026 (3rd place)
- Sandbox Startup Incubator SB05

RELATED SKILLS

Programming Languages: Python, TypeScript, JavaScript, HTML/CSS, Rust

Frameworks & Libraries: React, Next.js, Node.js, React Native, TanStack Query, Cargo

PROJECTS

Sandbox Startup Incubator SB05 - Cordinova *May 2025 - May 2026*

Utah State University & Sandbox

- Founded and led development of Cordinova, a production workforce-management SaaS platform combining scheduling, task management, and punch-clock functionality for small businesses.
- Built scalable React/TypeScript features using reusable UI components, API integrations, and TanStack Query while coordinating client feedback, sprint planning, and product scope.

HackUSU 2026 - RustScript, 3rd Place in Tool Dev Category *Feb 2026*

Utah State University - Jon M. Huntsman School of Business

- Created RustScript, a Turing-complete programming language and compiler in Rust that enables developers to build web applications using unified HTML, CSS, and Python-like syntax.
- Engineered the compiler pipeline, cross-file module system, dependency protection, and VS Code extension to improve usability and developer experience.

WORK EXPERIENCE

R. R. Donnelley **Logan, Utah**

Application Developer Intern *Aug 2026 - Current*

- Building data pipelines with Perl, XML, and Python that transform and feed client data into automated document production workflows.
- Translating legacy COBOL systems into Python alongside the Senior AppDev team, preserving business logic for critical applications.

R. R. Donnelley **Logan, Utah**

IT Production Support Specialist Summer Intern *May 2026 - Aug 2026*

- Supported enterprise production systems through application monitoring, incident resolution, deployment support, and ServiceNow workflows across Linux and Windows Server environments.

USU Information Technology **Logan, Utah**

Web Developer Intern Spring 2025 *Dec 2024 – May 2025*

- Developed and maintained responsive university web pages using HTML, CSS, JavaScript, XML, and XSLT within Modern Campus CMS.
- Collaborated in an Agile/Scrum environment to deliver web updates, troubleshoot CMS and hosting issues, and support department-facing digital services.
